Reflection

As we close and begin another week, please take some time to focus on your students who are not performing. What have you *not* done, that could still be done, to close gaps, to increase student achievement, and to monitor success? To assist in reviewing, we have developed a documentation tool that will be required to use for all students who are failing. Please take some time to review this form and begin implementation during your second part of the period that is required to be use for small group instruction, one-to-one instruction, re-teaching content, and accommodation implementation for IEPs and IAPs. Your appraiser will be reviewing your documentation. Have a great week!!!

A visit by Brownsville's Mayor

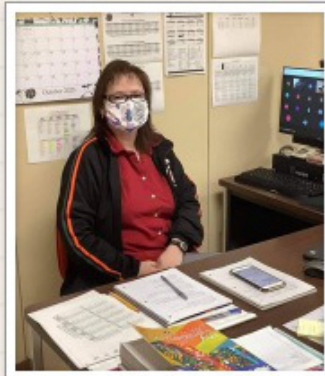

21st century students in Mrs. Garcia's Leadership Counseling Group got visited by Brownsville Mayor Trey Mendez. Students were able to ask Mr. Mendez questions about his role and career and receive valuable advice about their education, self-care, and future.
